

CERTIFIED STAFF ASSIGNMENTS AND TRANSFERS

The Board of Education believes that a teacher's primary responsibility is to teach and that their energies should, to the extent possible, be utilized to this end.

Instructional personnel will normally be assigned by the District Administrator or their designee to positions for which their preparation, certification, experience, and aptitude fit them. They may be assigned to any teaching assignment to which they are certified or certifiable.

The District Administrator shall have the right to transfer personnel to other positions for the betterment of the District and in accordance with the provisions of employee agreements.
