

ENERGY CONSERVATION

The Board of Education supports an energy conservation and education program in the District to lower consumption of electricity, natural gas, oil, water and other sources of energy. It will be the responsibility of each District employee and student to actively participate in conservation efforts in order to reduce consumption to acceptable levels consistent with any guidelines prescribed by state, federal, and local laws or regulations.

The District may participate in energy conservation programs approved by the Board of Education. It will be the responsibility of the District Administrator or designee, to implement, direct, monitor, evaluate and report District energy conservation efforts to the Board of Education.
