

## INSURANCE MANAGEMENT

The insurance program of the school District should provide the broadest, most complete coverage available, to be secured at the most economical cost to the District consistent with sound insurance principles. The District will make every effort to obtain insurance at the most economical cost, consistent with required service, by obtaining quotations or by negotiation using whichever method is advantageous to the district or as required by law.

The insurance program will be dealt with as a whole in order to eliminate policy noncurrency, inconsistency in rates, overlapping coverage, and gaps in the overall program.

Participation in writing school insurance carries with it an obligation on the part of the agent or broker to render competent service promptly.
