

STATE AND FEDERAL AID

In order to bring the full benefit of State and federal aid programs to bear upon the needs of the District, the Board of Education shall maintain close liaison with the Department of Public Instruction and appropriate state and federal agencies, and to cooperate with them fully in providing improved educational services.

New programs are to be submitted to the Board of Education for approval prior to filing an application for aid or making a commitment to the State or federal agency involved.

Funds for educational purposes made available by the state and federal government will be accepted by the District as long as the conditions of their availability are in harmony with the purposes and policies of the District, and of the State Statutes, as well as community standards.
